## SUMMARY

Computer Science student with practical experience in React, .NET Core(C#), and .NET(MVC) for websites and backend development. Skilled in building RESTful APIs, integrating databases, and working on Friendly UI based and data-driven projects. I enjoy learning new technologies, writing clean code, and contributing to collaborative software development.

---

## PROJECTS

### Teacher Folder Management System

2026- Working

- Developed a Teacher Folder Management System using ASP.NET Core and SQL Server to manage folders, files, and course-related records efficiently.
- Designed a user-friendly system to simplify teacher data storage, retrieval, and folder organization with improved accessibility and workflow.
- Complete integration with other modules, along with **Teacher Synchronization** in Course Contents.

### Ecommerce Website (Frontend)

- Designed and developed a user-friendly eCommerce website frontend using ASP.NET MVC with responsive and interactive UI pages.
- Created clean navigation, product display pages, shopping cart interface, and modern layouts to improve user experience and accessibility.
- Implemented MVC architecture principles to build a structured, maintainable, and visually appealing frontend system.

April - 2026

### Resturant Finder

- Developed a Restaurant Finder web application using React, Vite, React Router, and Leaflet to help users discover nearby restaurants through an interactive map interface.
- Implemented admin and user dashboards with features including restaurant management, menu creation, location-based search, and shopping cart functionality using React Context and useState.

---

## EDUCATION

### BS(CS) | PMAS Arid Agriculture University (BIIT)

2023-2027

- Engaged in developing and automating a manual system into Teacher Folders Management System for my Final Year Project.
- Website <https://biit.edu.pk/>

### INTERMEDIATE | Punjab Group of Colleges

2020-2022

- Talagang, Pakistan

### MATRICULATION | Crescent Public Science School

2018-2020

---

## SKILLS

**Microsoft Office:** GIT (Git Hub, Git Bash)

**Database:** SQL and MYSQL

**Back-end:** .NET Core (Entity FrameWork), C#

**Programming:** C#, .Net, React

**RESTful backend APIs integration**

## LANGUAGE

- URDU | ENGLISH
